

INDEX

Subject Index to Volume 38

A

accommodating IOL 14
aggressive posterior ROP (APROP) 111
Amphotericin B 30
anti-Koch's therapy 51
anti-TB drugs 51
antifungal sensitivity testing 33
apoptosis 54
arcuate incisions 1
Aspergillus 30
astigmatism 1
asymmetric tilt 19

B

best-corrected distance vision (BDVA) 27
bevacizumab 112
bio-test solutions 38
birth weight 105, 107
blindness in children 104
blurred vision 10

C

Cachet IOLs 27
Candida species 30, 33
capsulotomy 1
caspofungin 32
cataracts 2
cataract surgery 1, 11
childhood blindness 95
choroidal involvement 44, 47
Color vision 54
Conjunctival Staining 9
Contact lens 36
contrast sensitivity 28
contrast vision 28
Corneal incision 1, 11
corneal opacification 104
Corneal Staining 9
Crystalens 14
Cystoid macular edema 20

D

dry eye 6

E

ethambutol 51, 53
extraocular structures 45

F

femtosecond laser 2
femtosecond technology 3
filamentous fungi 33
Fluconazole 32
Fluorescein Tear Break-Up Time (FTBUT) 6, 9
fundus photography 84
Fusarium 30, 33

G

gestational age 105

H

high myopia 22
histopathological features 45
hyperoxia 61, 106
hypoxia 106

I

Implantable Collamer Lens (ICL) 22, 27
intraocular lens (IOL) 1, 22
intraocular pressure 20
IOL implantation 22
isoniazid 51
itraconazole 32

K

keratitis 30

L

Lanthon Desaturated test 54
laser-assisted-in-situ keratomileusis
(LASIK) 2, 6, 22, 27
laser indirect ophthalmoscope (LIO) 67
Laser photocoagulation 112
lens tilt 15, 16
low birth weight 78

M

MAPD 41
 maxillary metastasis 46
 Microbial keratitis 36
 mitomycin C 27
 Multipurpose contact lens solutions (MPS) 36, 37

N

“no-rub” solutions 36
 natamycin 30

O

ophthalmoscopy 84, 107
 optic nerve degeneration 54
 optic neuropathy 51, 53
 orbital recurrence 46
 oxygen monitoring 62
 oxygen supplementation 107

P

peripheral avascular retina 67
 phacoemulsification 1, 2, 6, 10
 photorefractive keratectomy (PRK) 2, 22, 27
 photosensitivity 10
 polyaminopropylbiguanide 41
 polyhexamide 41
 Polyquad 41
 posterior capsular bag 14
 posterior capsular opacification (PCO) 14, 16
 posterior capsular striae (PCS) 14, 16
 postlaminar optic nerve invasion (PLONI) 44
 premature babies 95, 107
 premature infants 96
 prematurity 78
 Pseudomonas aeruginosa 36
 pyrazinamide 51
 pyridoxal phosphate 54
 pyridoxine deficiency 54

R

radial keratotomy (RK) 2
 refractive outcomes 111, 112
 refractive surgery 27
 Reliability 82
 Retinoblastoma 44, 47
 Retinopathy of Prematurity
 (ROP) 61, 64, 73, 81, 87, 91, 95, 104, 110
 retrolental fibroplasia 104
 rifampicin 51
 ROP screening 81, 91, 92, 97, 104

S

Schirmer test 6, 10
 scleral involvement 47
 social desirability 92
 striae and lens tilt 19
 Subjective Grading of Ocular Discomfort (SGOD) 9
 supplemental oxygen 95

T

tear break-up time 6
 tear function 6
 tear production 11
 therapeutic yag (TY) 15
 Transpupillary laser treatment 111
 transscleral cryotherapy 110
 Tuberculosis (TB) 51

V

vascular endothelial growth factor (VEGF) 110, 112
 vitamin B 54
 vitamin supplementation 54
 voriconazole 30, 33

Y

Yag capsulotomy 14, 15, 20
 yeast 30

Z

Z syndrome 14, 19
