

## INDEX

### Subject Index to Volume 44

#### A

Acetazolamide 6  
Acute demyelinating event 8  
Alpha-agonists 49  
Angle closure glaucoma (ACG) 22, 86, 88  
Angle opening distance (AOD) 19  
Anterior and posterior elevation map 54  
Anterior chamber angle 86  
Anterior chamber depth (ACD) 19  
Anterior segment optical coherence tomography (AS-OCT) 20, 86, 89  
Appositional angle closure 88  
Aquaporin-4-antibody (AQP4- IgG) 5  
Argon laser peripheral iridoplasty (ALPI) 89  
Artifacts 31  
Automated perimeter 26

#### B

Best-corrected visual acuity (BCVA) 54  
Beta-blockers 49  
Biopsy 81  
Brimonidine 92, 93  
British Congenital Cataract Study 18

#### C

Carboxymethylcellulose 72  
Childhood cataracts 17  
Children's Visual Function Questionnaire (CVFQ) 15  
Children's Visual Function Questionnaire for children 3 years and beyond (CFVQ3plus) 1, 14, 15  
Clinically-definite MS (CDMS) 7  
Collagen cross-linking 55  
Confocal scanning laser ophthalmoscopy (CSLO) 38  
Confocal Scanning Laser Ophthalmoscopy Ancillary Study 38  
Contrast sensitivity assessment 4  
Controlled High-Risk Avonex® Multiple Sclerosis Study (CHAMPS) 7

COPOUSEP study 5  
Corneal astigmatism 54  
Corneal collagen cross-linking 54  
Corneal curvature 57  
Corneal lenticules 10  
Corneal patch 9  
Corticosteroids 4, 76  
Cryopreservation 10

#### D

Demyelinating optic neuritis 4, 8  
Diode cyclophotocoagulation 49  
Dry eye 68, 69

#### E

Ectasia progression 57  
Epiretinal membranes 26  
European Optic Disc Assessment Trial 38  
EuroQol five-dimensional five-level (EQ-5D-5L) questionnaire 60  
Excision biopsy 82  
Excitotoxicity 93

#### F

Fibrin glue 9  
Floor effect 26, 30  
Fluorescein staining 71  
FNAB 81

#### G

Ganglion cell complex (GCC) analysis 33  
Ginkgo biloba 92  
Glaucoma 25, 27, 30, 33, 46  
Glaucoma Automated Tests Evaluation (GATE) study 38  
Glaucoma progression 25, 26  
Glaucoma suspects and preperimetric glaucoma (GS/PPG) 27  
Glutamate 93  
Gonioscopy 86, 87  
Green disease 31

**H**

Health-related quality of life (HRQoL) 60  
 Health Utilities Index Mark III (HUI3) 60  
 Heidelberg Retinal Tomograph (HRT) 38  
 Histopathology-confirmed Idiopathic OID 76  
 Histopathology-confirmed Orbital Neoplasm 78  
 Hypromellose 72

**I**

Idebenone 7  
 Idiopathic intracranial hypertension (IIH) 6  
 Idiopathic Intracranial Hypertension Treatment Trial (IIHTT) 6  
 Idiopathic OID 81  
 IFN $\beta$ 1a 7  
 Incision biopsy 82  
 Intermittent exotropia 17  
 Intraocular pressure (IOP) 92  
 Intravenous methylprednisolone (IVMP) 4  
 IOP lowering 93  
 Iridotrabecular contact (ITC) 20  
 Ischemic Optic Neuropathy Decompression Trial (IONDT) 5

**K**

Keratoconus 55  
 Keratoplasty 55  
 Knowledge, attitudes, and practice patterns of ophthalmologists 68

**L**

Laser iridoplasty 88  
 Laser iridotomy 49, 88  
 Laser trabeculoplasty 49  
 Leber hereditary optic neuropathy (LHON) 7

**M**

Malignant glaucoma 88  
 Meibomian gland dysfunction (MGD) 73  
 Meibomian gland evaluation 71  
 Memantine 93  
 Multiple sclerosis (MS) 4  
 Multiple sclerosis Study 7  
 Myelin oligodendrocyte glycoprotein antibody (MOG-IgG) 5  
 Myopia 26, 31

**N**

Neovascular glaucoma (NVG) 49  
 Neuro-ophthalmology 3  
 Neuromyelitis optica (NMO) 5  
 Neuroprotection 93  
 Neuroprotective drugs 92  
 Non-arteritic ischemic optic neuropathy (NAION) 5  
 Normal tension glaucoma (NTG) 92

**O**

Ocular Hypertension Treatment Study (OHTS) 38  
 Ocular Trauma Score (OTS) 60  
 Open globe injuries 65  
 Optical coherence tomography (OCT) 25, 26, 27, 29, 30, 31, 33, 35, 36, 38  
 Optic disc photography 40  
 Optic nerve decompression surgery (ONDS) 5  
 Optic nerve head (ONH) 38, 40  
 Optic Neuritis Treatment Trial (ONTT) 4  
 Oral CAIs 49  
 Oral prednisone 4  
 Orbital “pseudotumor” 76  
 Orbital diseases 81  
 Orbital inflammatory syndrome (OID) 76

**P**

Papilledema 7  
 Pediatric ophthalmology 15  
 Perimetric glaucoma (PG) 27  
 Perimetry/visual field (VF) 27  
 Peripheral anterior synechiae 89  
 Phacomorphic glaucoma 88  
 Philippine Journal of Ophthalmology (PJO) 41  
 Plateau iris syndrome (PIS) 88, 89  
 Porcine eyes 9  
 Preperimetric glaucoma 30  
 Primary angle-closure glaucoma (PACG) 46  
 Primary angle closure (PAC) 86, 89  
 Primary angle closure suspect (PACS) 20  
 Primary glaucomas 51  
 Primary open-angle glaucoma (POAG) 46  
 Propylene glycol 72  
 Prostaglandin analogues (PGA) 49

**Q**

Quality of life (QoL) 1, 15, 60

## R

Red disease 31  
Refractive accommodative esotropia 17  
Rescue of Hereditary Optic Disease  
    Outpatient Study (RHODOS) 7  
Retinal ganglion cell death 93  
Retinal nerve fiber layer (RNFL) 29, 38  
Riboflavin 55

## S

Scanning laser polarimetry (SLP) 38  
Schirmer test 71  
Schwalbe's line (SL) 20  
Scientific paper 42  
Scleral spur (SS) 20  
Scleral spur angle (SSA) 19  
Scotomas 27  
Serum glial autoantibodies 5  
Small incision lenticule extraction (SMILE) 10  
Socioeconomic status (SES) 46, 52  
Spectral-domain OCT (SD-OCT) 29  
Stereopsis 17, 38  
Stereoscopic photos 37, 38  
Strabismus 17  
Sutures 10  
Systemic corticosteroid 81

## T

Tear break-up time 71  
Three-level EuroQol-5D (EQ-5D-3L) 60  
Topical carbonic anhydrase inhibitors (CAI) 49  
Trabecular-iris space area (TISA) 19

## U

Ultrasound biomicroscopy (UBM) 22  
Uveitis 26

## V

Visual acuity (VA) 4  
Visual fields 40  
Visual field test 26  
Visual field testing 4  
Visual impairment 1  
Visual impairment (VI) 15
